

Moose Lake – Online Shopping

Hello there! My name is Chris Fitzsimmons and I am the Online Shopping Manager. When I started working for Marketplace Foods a little over two years ago, the delivery service was limited to seniors who could call in their orders once a week. That has thankfully changed and we now offer more options for the way customers can shop from the comforts of their own home, office or anywhere they have an internet connection. Now anyone can sign up, get their customer number on our website (www.marketplacefoods.com), and begin ordering. We are more than happy to deliver your order, but if it works out better for you, we can have it shopped and ready, at the store, for pick-up when it is best for you. Our service has expanded to Monday through Friday, two different order times per day, and we still take the call in orders. Shopping can be fun without the long lines! If you do not have an internet connection, you can call 1-877-933-3003 (8:00am to 5:00pm, Monday through Friday) to place your order, and there is a \$5.00 fee to call the order in by the 800 number or to call into the store. There is a \$5.00 fee for pick-up orders and a \$10.00 fee for delivered orders. The delivery radius is 10 miles from the store. If you are located outside the delivery radius and need service, please call the store at 218-485-4336.

Coupons are accepted online just as in the store, and now you can get even more savings by shopping online with our online specials. Look throughout our store for the online special shelf tag. When you see those tags, you know you can save more money by purchasing that product online.
